Hydromassage Bathtub Accessory (Pump) - NCHX2,  
UL File No. 1795, Control Number E214049

### Order Information:

DuraFlo Compact Whirlpool Pump  
Model 001437S-SM  
Order No. 001437S-SM

The DuraFlo® Compact™ 001437S-SM Pump is an innovative 5.5 amp compact pump design that provides reliable, energy-efficient pumping power for up to 6-8 Jet whirlpool systems. For best performance, we recommend use with a maximum of 6 jet systems. For larger 8-10 jet systems, we recommend the DuraFlo 001438E whirlpool pump.

This pump incorporates a unique, patented cooling design that runs cooler than other similar pumps, yet produces excellent pumping power. The result is reliability and performance that makes this appropriate for use with all small to medium sized whirlpool systems.

This pump utilizes a UR-approved motor and fully UL-approved pump to provide the safety, reliability and performance you expect of DuraFlo® pump. The pump is equipped with a 3' (0.9m) power cord as well as a pneumatic controller.

As with our entire DuraFlo line, all of our pumps are 100% tested before shipment and includes a 5-year factory warranty.

This pump delivers on the promise of safety, performance, reliability and affordability, and is the logical choice for all small to medium-sized whirlpool systems.
